|---|---|

### Highlights Explanation

1. **Soft Adventure for People, Culture & Nature in Wangaya Gede Traditional Village – BALI**

Trekking the village to see the Balinese Daily Life and their magnificent rice terraces and interact with locals who is still working at the rice field. At the finish point, enjoy the traditional snack and having lunch with the view of glorious rice terrace surround by 5 mountains as the background. Continue to visit Batukaru Temple, one of Bali’s key temples, located at the foot of Mount Batukaru.

2. **Unique Baby Plasenta’s Hanging Grave at Bayung Gede Traditional Village – BALI**

Start the journey to Taro Village which famous for its agriculture such as orange and Aloe Vera. Then continue to Bayung Gede Traditional Village where the baby’s placentas are hanging on the specific trees’ branches. The unique of this grave is the baby’s placentas are not buried but it is hung. The placenta are put inside of the Kau - coconut shell then hang in the specific trees which has poison fruits. Even though the placentas are only be hung, visitors will not smell the placenta or the blood scent. The scent of the coconut shell covers the fishy smell. Every placenta of the villager have to be put and hang in this place.

3. **5 Days Komodo Dragon Adventure**

Cruising with our Phinisi cabin boat to the habitat of Komodo Dragon. Upon arrival in Komodo island, walk for 1.5-3 miles to have the possibility of seeing the Varanus Komodoensis in their nature life, which is up to 3 m long and about 150 kg, weight which was scientifically described in 1912 by Pieter Ouwens a Dutch Zoologist. Then combine with snorkeling to enjoy the beautiful panorama beneath the sea or just have sun bathing on the pink beach.
